

Title: "Clear All Filters" button does not reset filters properly

ID: BUG-001

Environment:

- Platform: [Android /Web]
- Browser : [Chrome/Firefox/Edge]

Severity: Medium

Priority: High

Steps to Reproduce:

1. Open the Website and navigate to the Men section.
2. Apply multiple filters (e.g., Size, price range, Color).
3. Click on the "Clear All Filters" button.

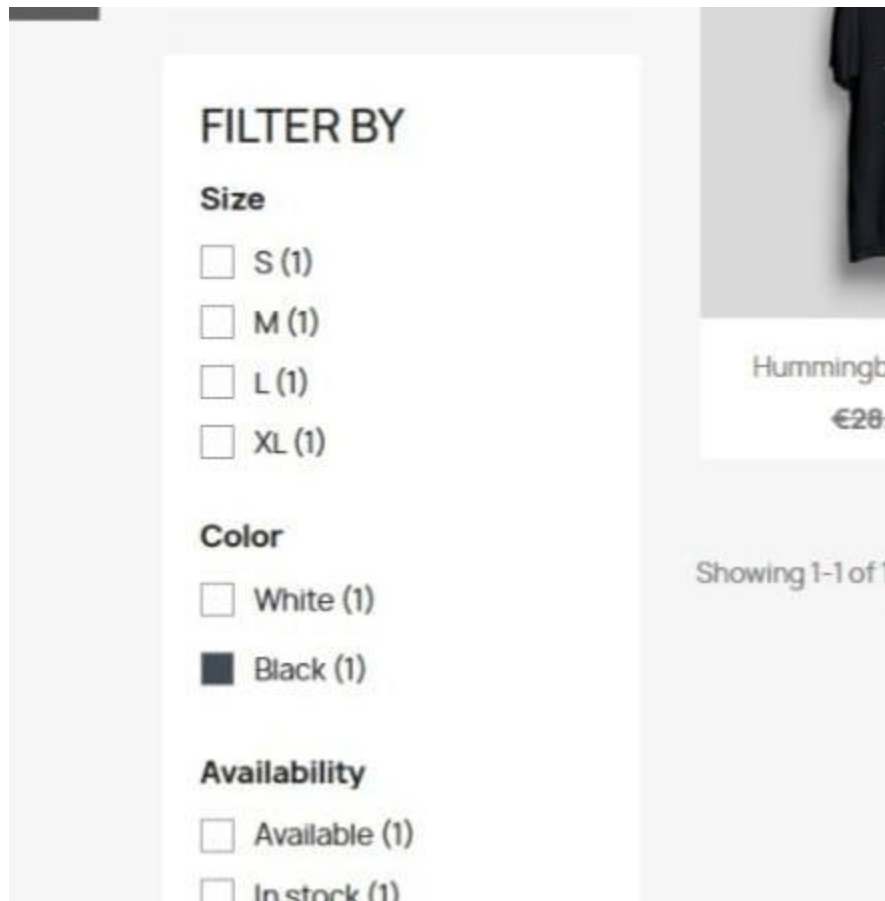

Expected Result:

All applied filters should be removed, and the default state should be restored.

Actual Result:

Some filters remain applied (Color Section) and the page does not return to its default state.

Title: "404 Page Not Found" Error Displayed Unexpectedly

ID: BUG-002

Environment:

- Platform: [Android /Web]
- OS: [Windows / /Android]
- Browser : [Chrome/Firefox/Edge]

Severity: High

Priority: Critical

Steps to Reproduce:

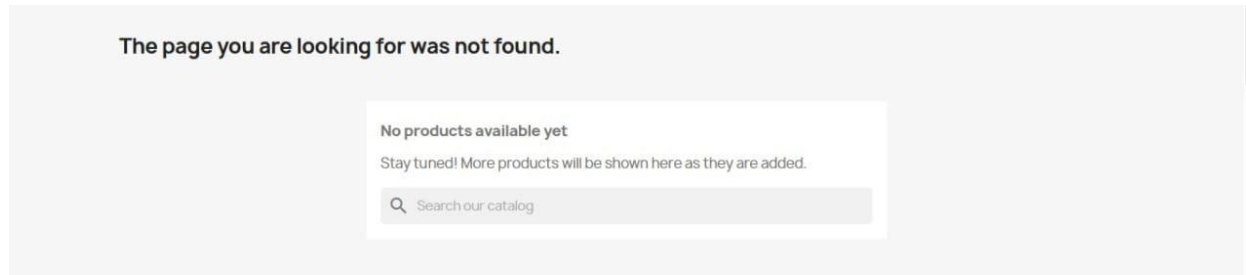

1. Open the application and navigate to "Accessories Suppliers"
2. Observe the page load.

Expected Result:

The correct page should be displayed without any errors.

Actual Result:

A "404 Page Not Found" error is displayed instead of the expected content.

Attachments:**Title: "404 Page Not Found" Error on "Fashion Supplier" Page**

ID: BUG-003

Environment:

- Platform: [Android /Web]
- OS: [Windows / /Android]
- Browser : [Chrome/Firefox/Edge]

Severity: High

Priority: Critical

Steps to Reproduce:

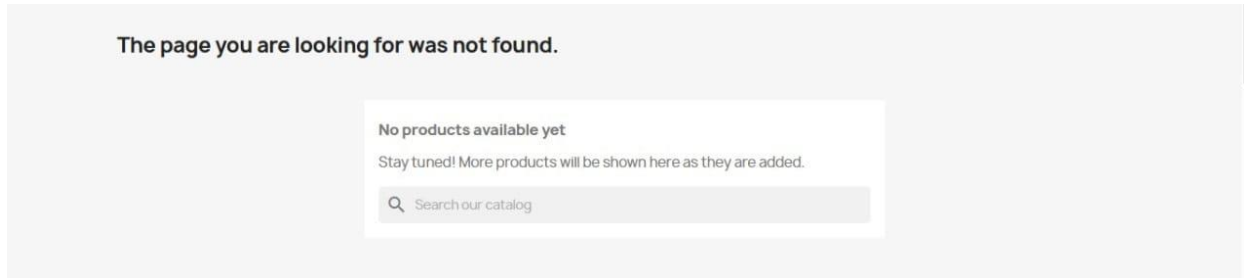

- 1 Open the application and navigate to "Fashion Supplier"
- 2 Observe the page load.

Expected Result:

The correct page should be displayed without any errors.

Actual Result:

A "404 Page Not Found" error is displayed instead of the expected content.

Title: System Does Not Accept 3-Digit Numbers Within the Range ($300 < \text{Num} < 350$)

ID: BUG-004

Environment:

- Platform: [Android /Web]
- OS: [Windows/ /Android/iOS]
- Browser : [Chrome/Firefox/Edge]

Severity: Medium

Priority: High

Steps to Reproduce:

1. Open the application and navigate to the input field for entering a number.
2. Enter a 3-digit number within the range (e.g., 325).
3. Submit or move to the next field.

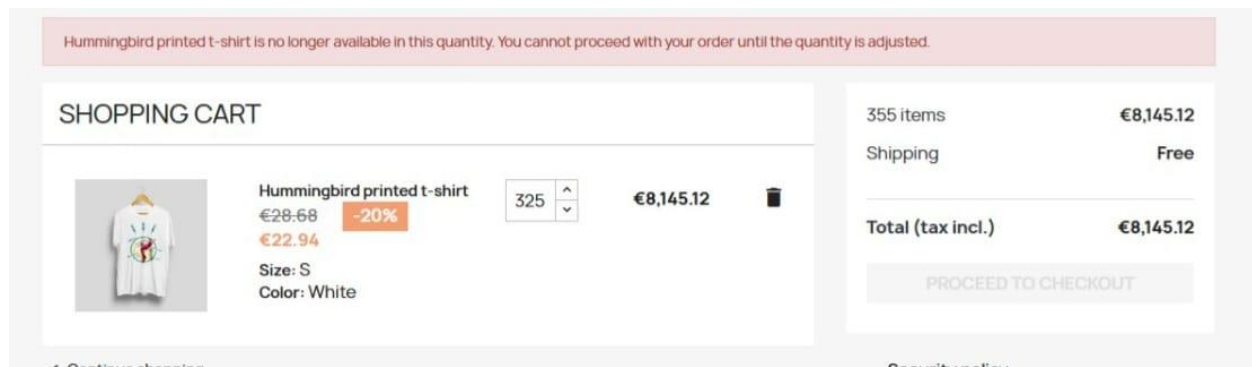

Expected Result:

The system should accept the number if it is within the specified range ($300 < \text{Num} < 350$).

Actual Result:

The system does not accept the number

Title: Incorrect Displayed When Searching for a Valid Product Name

ID: BUG-005

Environment:

- Platform: [Android /Web]
- OS: [Windows /Android/iOS]
- Browser : [Chrome/Firefox/Edge]

Severity: High

Priority: High

Steps to Reproduce:

1. Open the application and navigate to the search bar.
2. Enter a valid product name (e.g., " Shoes") and initiate the search.
3. Observe the search results.

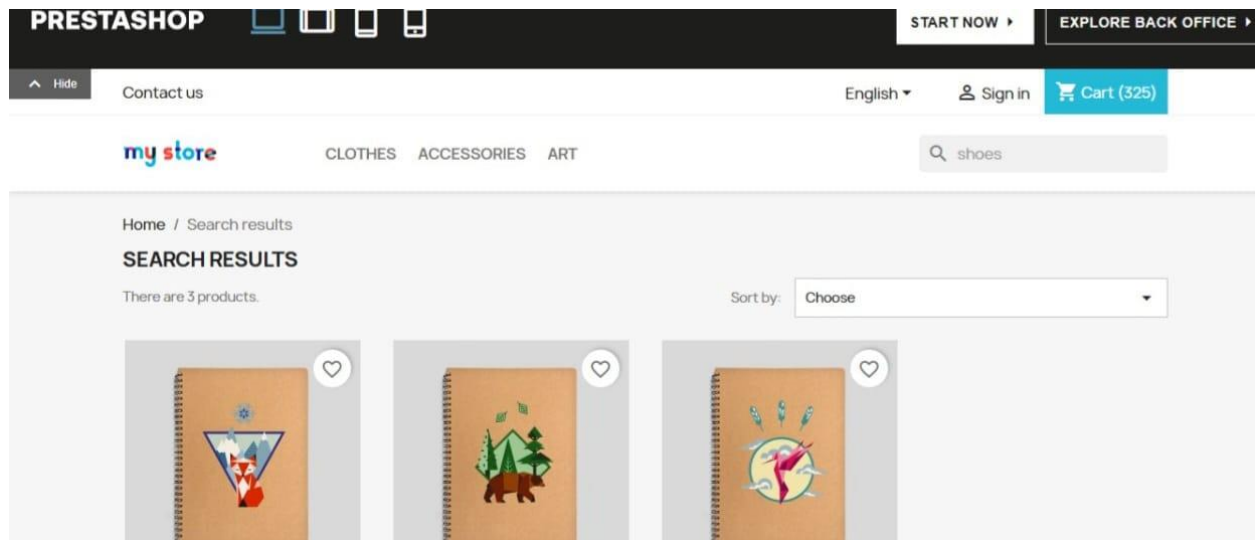

Expected Result:

The system should display accurate and relevant search results matching the entered product name.

Actual Result:

- The system either returns no results or displays incorrect/unrelated products.

Title: Language Change Does Not Update Site Content Correctly

ID: BUG-006

Environment:

- Platform: [Android /Web]
- OS: [Windows/Android/iOS]
- Browser : [Chrome/Firefox/Edge]

Severity: Medium

Priority: High

Steps to Reproduce:

1. Open the application and navigate to the language selection option.
2. Change the language to [Target Language] (e.g., English to Arabic).
3. Observe the site content after switching languages.

Expected Result:

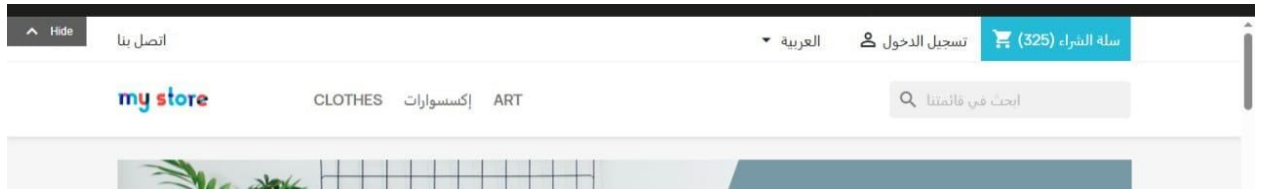

All site content should update to reflect the selected language, including menus, buttons, labels, and product descriptions.

Actual Result:

- Some elements remain in the previous language.

- Certain sections display untranslated or mixed-language content.
- Formatting or layout issues appear after the language switch.

Title: System Accepts a Single Letter in First Name and Last Name Fields

ID: BUG-007

Environment:

- Platform: [Android /Web]
- OS: [Windows/Android]
- Browser : [Chrome/Firefox/Edge]

Severity: Medium

Priority: High

Steps to Reproduce:

1. Open the Website and add item then continue to personal information
2. Enter a single letter in the "First Name" field (e.g., "A").
3. Enter a single letter in the "Last Name" field (e.g., "B").
4. Submit the form.

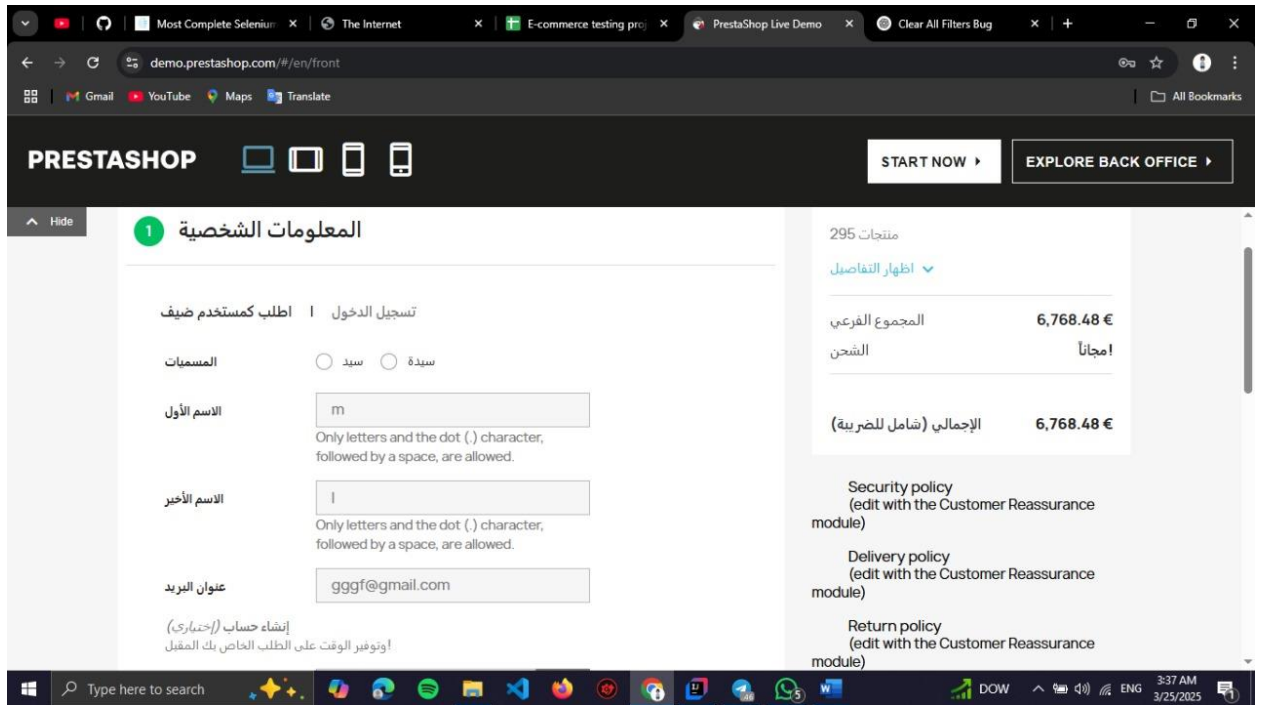

Expected Result:

The system should display an error message indicating that the first name and last name must contain at least two characters.

Actual Result:

The system accepts a single letter for both the first name and last name without any validation error.

Title: No Error Message Displayed When User Enters an Invalid City

ID: BUG-008

Environment:

- Platform: [Android /Web]
- OS: [Windows /Android/iOS]
- Browser : [Chrome/Firefox/Edge]

Severity: Medium

Priority: High

Steps to Reproduce:

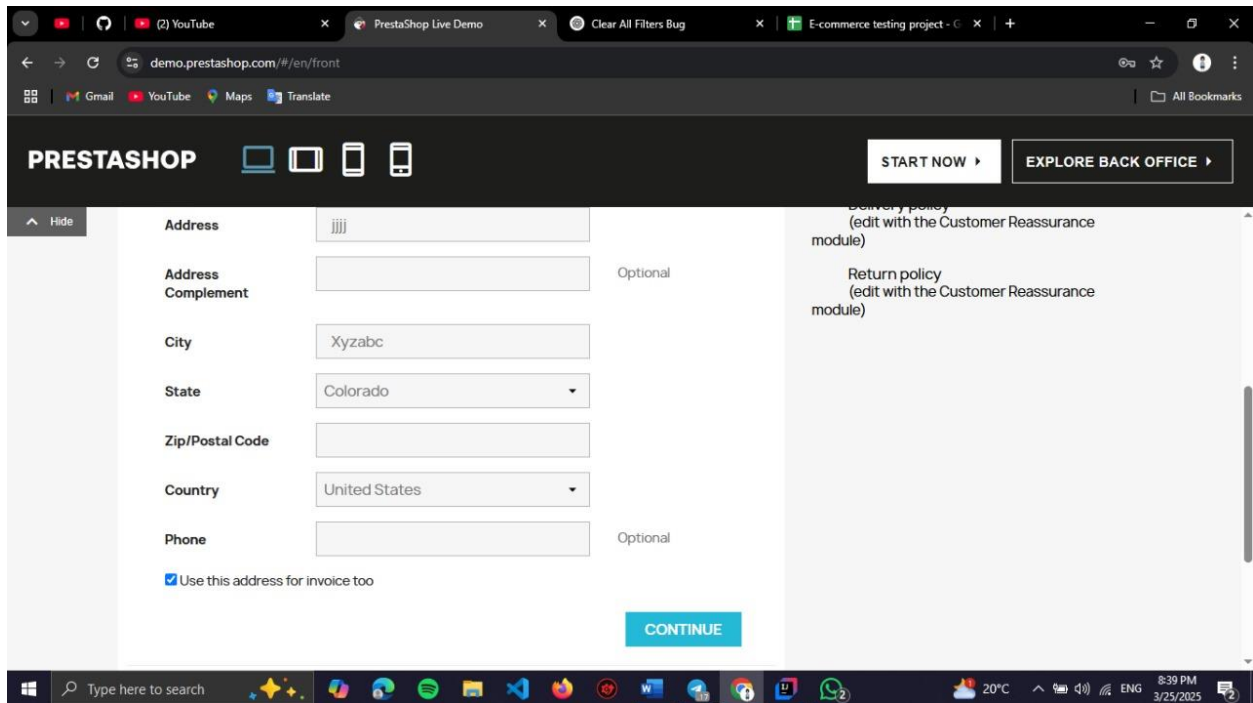

1. Open the Website and add item to cart then go to personal information section.
2. Enter an invalid or non-existent city name (e.g., "Xyzabc").
3. Submit the form.

Expected Result:

The system should display an error message indicating that the entered city is invalid or not recognized.

Actual Result:

The system accepts the incorrect city without showing any validation error message.

The screenshot shows a web browser window with the URL `demo.prestashop.com/#/en/front`. The page displays the PrestaShop logo and navigation links. The main content area shows a form for entering address information. The form fields are as follows:

Field	Value	Optional
Address	jjjj	
Address Complement		Optional
City	Xyzabc	
State	Colorado	
Zip/Postal Code		
Country	United States	
Phone		Optional

Below the form, there is a checkbox labeled "Use this address for invoice too" which is checked. A "CONTINUE" button is visible at the bottom right of the form. On the right side of the page, there is a sidebar with links to "Delivery policy" and "Return policy", both with a note "(edit with the Customer Reassurance module)".
